

NORTHERN HILLS PONY CLUB

We have done some pretty fun stuff since the last newsletter – the Bumble Bees have been buzzing around here, there and everywhere.

AT HOME

- We have had a rally with guest instructor Steve Brewster and he literally had everyone giggling when he chose to “run” alongside TB Dan – anyone who knows our member Emily Hill, knows her horse Dan and his lets say “expressive” way of getting around, was definitely entertaining for all – Thanks Steve, a very fun rally.
- We are super dooper excited to announce that Karen & Emily Hill won a competition for Solar lights for our new club rooms – what a massive help this will be for us. Thanks for your entry Karen & Emily – NHPC will be truly “lit”!
- Another successful working bee getting the ramp around the clubrooms spread – thank you to all that came up and gave us a hand
Thank you SONARAY EQUESTRIAN for holding this competition and choosing NHPC.
- We are continuously trying to raise funds and save towards our arena and so after a very productive AGM – we have loads of ideas and really hope we will get lots of support to raise these vital funds.

OUT & ABOUT

- We attended the Zone Training Day at Pegasus P.C - thank you Dale & Beck for your knowledge, we had a great day and made the most of the subsidized training, thanks Metro Zone!
- A number of our members went to Monarto for a Cross Country training day, we enjoyed the chance to “wear our own colours” and we had a great time, it is always fun to get a chance to wear colourful stuff out on the cross country courses.
- We went to Antola Lodge and had a fun day desensitizing the horses, ponies (not to mention the riders) – this is a great place and we highly recommend it, I think Katie wins the cutest member award on her little pony – just so adorable.

NEW MEMBERS

- Last but not least – we have two lovely new members who joined us this month - Cherie & Carmen, a couple of local Kersbrook girls that have come on board and Cherie enjoyed her first rally with us at Antola. Welcome to the beehive ladies.

Covid has kept us all down, and not out doing what we love, but we can still do stuff if we abide by the rules, wash our hands and stay home if not feeling well - stay safe everyone

Some fun pics

SONARAY AUSTRALIA
EQUESTRIAN
Area & Stable Lighting

WINNERS

OBI SOLAR LIGHT BAR KIT

THE BRIGHTEST SOLAR LIGHT BAR ON THE MARKET

OBI LIGHT BAR
4410 Lumens of focused lighting
